

6 NW Med/Surg Unit

About Our Team

6 NW team members all have advanced mobility and pain management training to insure our orthopedic, spinal and vascular patients receive the best care possible. 6 NW employs highly trained R.N.s, LPNs, PCTs, unit secretaries and orthopedic technicians to help speed the recovery of our patients.

New Technology

- Automatic vital sign machines
- Walkers
- New CPM machines
- PCA pumps on ortho and spinal patients
- Dopplers
- Coming soon – remote telemetry and the entire floor is being renovated

Vital Stats

6 NW will soon be renovated to include 11 semi-private rooms and four private rooms for a 26-bed capacity. Physical therapy will have an exercise gym on the floor to rehab post-operative spinal and orthopedic patients.

Our Team Members

RN Clinical III: “I like working on 6 north because most of the team has been together for years. We all work well together – all three shifts – and new team members seem to fit right in.”

CNA: “I enjoy working with the experienced and caring staff on 6 North and taking care of the type of patients who come to our floor.”

A Word from Our Manager

“6 North is a great place to work because the values of the organization – respect, trust, dignity, excellence and responsibility are driven not just from the top down, but from the bottom up.”
